(PDF) Sense of Place in Environmental Education

Exploring a Sense of Place is a project, a course, a guidebook. Our mission is to provide the means by which people anywhere on Earth can reconnect to the natural world where they live. The Exploring a Sense of Place programs and guidebook are the tools for discovering how to do this wherever you are.

Exploring a Sense of Place

Sense of place—including place attachment and place meanings—can help people appreciate ecological aspects of cities. A place may also conjure contradicting emotions—the warmth of community and home juxtaposed with the stress of dense urban living.

Sense of Place - The Nature of Cities

We've created unit outlines for Grades K-2 and 3-5 using some of the resources found in the issue titled A Sense of Place. Rather than be a rigid and prescriptive unit plan, the outlines are meant to spark your creativity and help you integrate these resources into your own particular teaching situation. The unit outlines follow the 5E Learning Cycle model - engage, explore, explain, expand, evaluate.
