illustrating many techniques for diagrams used by ten different architectural firms, the book shows us the importance of infography in communicating ideas visually.

construction and design manual: architectural and program ...

Architectural and Program Diagrams 01. Diagrams are playing an increasingly important role in architecture and city planning. They help to make complex ideas, systems and relationships easy to visualize and help to communicate these, crossing linguistic and cultural barriers. Diagrams illustrate bold visions and unexpected approaches and are a key component for developing complex construction projects - and they thus play their part in realizing these projects successfully.

ARCHITECTURAL CONCEPTS: PROGRAMME — PORTICO

A familiar example of a programmatic strategy is the relationship or "bubble" diagram. These diagrams indicate what functions should be near each other in order for the project to function smoothly.

Relationship diagrams can also indicate the desired circulation connections between spaces, what spaces require security or audio privacy, or other aspects of special relationships.
