Awaken the Darkness is the eighth book of the Immortal Guardians series - which is one of my favourite series by the way. Originally it was supposed to be a novella, but since Dianne Duvall is now a self-publishing author (good for you, Dianne!) it magically ended up being much longer *cough* 400 pages *cough* and I'm absolutely not mad about it.

Return to the "utterly addictive" (RT Book Reviews), "fast-paced and humorous" (Publishers Weekly) world of New York Times bestselling author Dianne Duvall's Immortal Guardians. He awakens encapsulated in dirt with no knowledge of how he came to be there. Riddled with injuries, he can remember neither his past nor who he is. Nor can he remember what he is. But surely no mortal man could survive being buried deep beneath the earth. All he knows with certainty is that the soothing voice and presence of the woman moving around above enables him to endure the agony of his wounds. And he will do whatever it takes to be with her. When Susan first sees the old two-story house for sale, such warmth and longing fill her that--against all reason--she makes an offer. It will take years of hard work and money she frankly doesn't have to fix up the place. So she can't explain why she bought it. She also can't explain what compels her to spend hours one night, digging in the basement until she unearths a man. A man who still lives and breathes despite having been buried alive. A man whose intense brown eyes glow amber with pain, declaring him far more than ordinary. Susan knows she should keep her distance. He has no memory and possesses gifts that would make most fear him. But as the two work together to unravel the mystery of his past, she finds herself drawn in by his teasing nature and tender touch. So much so that she

"These dark, kick-ass guardians can protect me any day!"--Alexandra Ivy

Dianne Duvall lures readers into a world of romance and suspense, where love can mean the difference between life and death. . . Dr. Melanie Lipton is no stranger to the supernatural. She knows immortals better than they know themselves, right down to their stubborn little genes. But it's not his ideas that have Melanie fighting off surges of desire. . . Bastien is used to being the bad guy. In fact, he can't remember the last time he had an ally he could trust. But Melanie is different--and under her calm, professional exterior he senses a passion beyond anything in his centuries of experience. Tales of alpha angels...from four alpha authors. They soar through the night, unearthly creatures of legends and lore. Four masters of urban fantasy and paranormal romance explore the rapture of the heavens above, and the darkness below in four all-new stories of angels and guardians, and good and evil.

"This is THE BEST Paranormal Romance series! I have been a huge paranormal romance fan for decades. I found The Children of the Gods series a few years ago and binged the books in no time. I also eagerly await every new book! (IT Lucas is quite prolific and the speed of her publications is amazing!)... I love how she interweaves the stories of many different characters. I also love that she makes each couple's story unique -- not cookie cutter! Additionally she does a fantastic job of creating great short term and long term plot lines. This particular new character in this new book is fantastic and I love that we finally get to know Anundar better! The characterizations are great and plot lines interesting. I love knowing what's going on in the lives of the people in this universe and can't wait to see how things unfold! Bravo!"-----This was a strange new world she had awakened to. Her memory loss must have been catastrophic because almost nothing was familiar. The language was foreign to her, with only a few words bearing some similarity to the language she thought in. Still, a full moon cycle had passed since her awakening, and little by little she was gaining basic understanding of it--only a few words and phrases, but she was learning more each day. A week or so ago, a little girl on the street had tugged on her mother's sleeve and pointed at her. "Look, Mama, Wonder Woman!" The mother smiled apologetically, saying something in the language these people spoke, then scurried away with the child looking behind her shoulder and grinning. When it happened again with another child on the same day, it was settled. Wonder Woman must have been the name of someone important in this strange world she had awoken to, and since both times it had been said with a smile it must have been a good one. Wonder had a nice ring to it. She just wished she knew what it meant.
