Hank stars the same Hank as in the bestselling Hank Zipzer series, only this time he's in 2nd grade! Hank is a kid who doesn't try to be funny, but he somehow always makes the kids in his class laugh. He's pretty bad at memorizing stuff, and spelling is his worst subject. (But so are math and reading!) In the first book in this new series, Hank's class is putting on a play, and Hank wants the lead part: Aqua Fly. But he freezes in his audition and can only buzz like a fly. His teacher creates a special part for Hank, a silent bookmark. This may seem like an insignificant role, but when his enemy, Nick McKelty, freezes during the performance, it's up to Hank to save the play!

Don't miss the instant New York Times bestseller from Emmy Award winner Henry Winkler and Lin Oliver that Diary of a Wimpy Kid author Jeff Kinney calls "truly out of this world!" It doesn't take long for Buddy to land a role on a popular TV show, playing (of course) an alien. He becomes an overnight heartthrob and is suddenly faced with legions of adoring fans, rides in glamorous limos, and appearances at "all-the-shrimp-you-can-eat" red carpet parties. But can Buddy maintain his secret identity while in the spotlight?

With the help of his grandfather, underachieving fifth-grader Hank Zipzer finally discovers that he is good at ping-pong, but he is afraid to tell his classmates for fear of being ridiculed.

The blogger behind forgottenbookmarks.com shares the unexpected keepsakes he's discovered between the pages of the books sold in his family's used book store, including photos, ticket stubs, old recipes, notes, valentines and unmailed letters. 40,000 first printing.

Julia is very short for her age, but by the end of the summer she'll realize how big she is inside, where it counts. This is the summer she gets cast as a munchkin in a production of The Wizard of Oz. She hasn't ever thought of herself as a performer, but as Julia becomes friendly with the poised and wise Olive - an adult with dwarfism who doesn't let her size define her - and with a deeply artistic neighbour named Mrs. Chang, she finds that she may not be as tall as everyone else, but she more than deserves to hold her head high.

NATIONAL BESTSELLER What would actually make America great: more people. If the most challenging crisis in living memory has shown us anything, it's that America has lost the will and the means to lead. We can't compete with the huge population clusters of the global marketplace by keeping our population static or letting it diminish, or with our crumbling transit and unaffordable housing. The winner in the future world is going to have more—more ideas, more ambition, more utilization of resources, more people. Exactly how many Americans do we need to win? According to Matthew Yglesias, one billion. From one of our foremost policy writers, One Billion Americans is the provocative yet logical argument that if we aren't moving forward, we're losing. Vox founder Yglesias invites us to think bigger, while taking the problems of decline seriously. What really contributes to national prosperity should not be controversial: supporting parents and children, welcoming immigrants and their contributions, and exploring creative policies that support growth—like more housing, better transportation, improved education, revitalized welfare, and climate change mitigation. Drawing on examples and solutions from around the world, Yglesias shows not only that we can do this, but why we must. Making the case for massive population growth with analytic rigor and imagination, One Billion Americans issues a radical but undeniable challenge: Why not do it all, and stay on top forever?
