Two experts in monetary policy offer a unified framework for studying the role of money and liquid assets in the economy. In Money, Payments, and Liquidity, Ed Nosal and Guillaume Rocheteau provide a comprehensive investigation into the economics of money and payments by explicitly modeling trading frictions between agents. Adopting the search-theoretic approach pioneered by Nobuhiro Kiyotaki and Randall Wright, Nosal and Rocheteau provide a logically coherent dynamic framework to examine the frictions in the economy that make money and liquid assets play a useful role in trade. They discuss the implications of such frictions for the suitable properties of a medium of exchange, monetary policy, the cost of inflation, the inflation-output trade-off, the coexistence of money, credit, and higher return assets, settlement, and liquidity. After presenting the basic environment used throughout the book, Nosal and Rocheteau examine pure credit and pure monetary economies, and discuss the role of money, different pricing mechanisms, and the properties of money. In subsequent chapters they study monetary policy, the Friedman rule in particular, and the relationship between inflation and output under different information structures; economies where monetary exchange coexists with credit transactions; the coexistence of money and other assets such as another currency, capital, and bonds; and a continuous-time version of the model that describes over-the-counter markets and different dimensions of liquidity (bid-ask spreads, trade volume, trading delays).

Successful real estate investments play an essential role in Canadian investors' portfolios. The growth in wealth in real estate markets has presented investors with tremendous opportunities to capitalize on and expand their range of investments, and has moved real estate investing from a niche product to a pillar of smart portfolio diversification. In Making Money in Real Estate, 2nd Edition, Douglas Gray demystifies the Canadian real estate market for novice investors and presents new strategies for veteran investors. Learn to: Understand the real estate market cycles Find a property and assess its investment potential Build a trustworthy real estate team Arrange financing on good terms Use negotiating tactics that work Understand tax and legal issues Manage a property Avoid the pitfalls that many investors fall into Examine the pros and cons of non-residential property investment options Readers of previous editions will appreciate the vital changes to mortgage rules, taxation and legislation, and the inclusion of information on commercial real estate. Thorough coverage in plain English makes Making Money in Real Estate, 2nd Edition the next logical step for investors who want to begin or expand their real estate portfolios, and is a critical and indispensable tool in investment decision making.

"Terrifying... Eloquent... A heart-rending drama of human yearning." --New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the dries and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

When the Mankiw text was first published, The Economist wrote, "Mr. Mankiw's book sets a new standard of clarity and liveliness." USA Today called it "a grand success." Since then, the book has been translated into more than a dozen languages and has been used at hundreds of schools to introduce economics to hundreds of thousands of students around the world. South-Western is now pleased to bring you this third edition. To help you in your study, South-Western has prepared a variety of student resources to accompany the book. These supplements test your understanding and provide you with opportunities for practice and research in economics. Book jacket.
