The best-selling authors of Sway draw on psychological and sociological sources to explore the seemingly magical experiences of engagement that can occur when people connect with one another, sharing stories about individuals who have had life-changing moments of positive shared focus.

In a book that combines psychology and sociology with an insightful understanding of human interactions, Ori and Rom Brafman have written a compelling narrative that helps us to understand the magic behind those moments when we form an incredible connection with other people, or which cause us to become fully engaged in whatever we are doing. In a page-turning narrative in the fashion of their previous book, Sway, the co-authors explore those peak moments in our lives when people or hobbies or activities fully engage our attention - when they 'click' with us. Drawing from recent research in psychology and sociology, and told through the same kinds of engaging stories that made Sway a New York Times bestseller, Click takes us on a roller coaster journey of discovery into those moments in our lives when we are 'in the zone' - when the rest of the world drops away and everything seems to fall into place.

In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "Click: The Magic of Instant Connections." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.
