DESTINOS is an innovative beginning Spanish program based on a 26-week television series premiering on PBS in the fall of 1992. The 52 half-hour shows of the series use the powerful appeal of a uniquely Hispanic genre -- the telenovela (soap opera) -- to make language and culture come alive. The situation and context of each episode introduce students to the basic structures, language functions and vocabulary groups of Spanish that are then presented in the print materials. (Most grammar explanations and exercises are in the workbook/study guides.) This complete one-year course is designed to help students develop communicative proficiency -- listening, speaking, reading, and writing -- as well as cultural awareness in Spanish. The plot of DESTINOS is designed to engage student viewers from the very beginning. A wealthy Mexican patriarch, nearing the end of his life, reveals a secret he has kept from his family for many years. His revelation leads to some important questions that must be answered before he dies. Raquel Rodríguez, a Mexican-American lawyer, embarks on a search for those answers, a search that takes her to Spain, Argentina, Puerto Rico, and back to Mexico. Students and viewers can join in the search -- learning Spanish and about the rich and diversified cultural context in which it is spoken throughout the world.

This is a core student textbook, which along with two separate workbooks, serves as a bridge between first and second-year Spanish. It is not necessary to have used the original text Destinos to use Nuevos Destinos and the text retells the original story, while also relating a new mystery involving the Castillo family. The text contains a preliminary chapter and is followed by 15 chapters which correlate to the 15 video episodes available. An authentic literary reading can be found in every other chapter, these are tied in to the cultural focus of the chapter. At the end of each chapter a final writing task brings the themes and information gathered throughout the chapter together.
