Pocket Guide to Teaching for Resuscitation
Medical Instructors by the
Advanced Life Support Group and
Resuscitation Council (UK)
provides an updated guide for
instructors teaching on life
support courses. Compiled by
authors experienced in designing
highly respected and successful
courses, this guide gives sound,
clear advice on the most effective
methods of teaching. Content
covers an introduction to the
basic principles of teaching and
deals in detail with a number of
modes of teaching on courses.
Lectures, skill stations, role play,
workshops, discussions and e-
learning are all explored and in
each case practical guidance is
given to help the reader to
become a more effective teacher.

Resuscitation
cause of death in the United States, following cancer and heart disease. Four out of five cardiac arrests occur in the home, and more than 90 percent of individuals with cardiac arrest die before reaching the hospital. First and foremost, cardiac arrest treatment is a community issue - local resources and personnel must provide appropriate, high-quality care to save the life of a community member. Time between onset of arrest and provision of care is fundamental, and shortening this time is one of the best ways to reduce the risk of death and disability from cardiac arrest. Specific actions can be implemented now to decrease this time, and recent advances in science could lead to

new discoveries in the causes of, and treatments for, cardiac arrest. However, specific barriers must first be addressed.

Strategies to Improve Cardiac Arrest Survival examines the complete system of response to cardiac arrest in the United States and identifies opportunities within existing and new treatments, strategies, and research that promise to improve the survival and recovery of patients. The recommendations of Strategies to Improve Cardiac Arrest Survival provide high-priority actions to advance the field as a whole. This report will help citizens, government agencies, and private industry to improve health outcomes from sudden cardiac arrest across the United States.
