U.S. condemns 'unprovoked' attack on mosque

In the midst of the dramatic seventh-century war between two empires, Muhammad was a spiritual seeker in search of community and sanctuary. Many observers stereotype Islam and its scripture as inherently extreme or violent-a narrative that has overshadowed the truth of its roots. In this masterfully told account, preeminent Middle East expert Juan Cole takes us back to Islam's-and the Prophet Muhammad's-origin story. Cole shows how Muhammad came of age in an era of unparalleled violence. The eastern Roman Empire and the Sasanian Empire of Iran fought savagely throughout the Near East and Asia Minor. Muhammad's profound distress at the carnage of his times led him to envision an alternative movement, one firmly grounded in peace. The religion Muhammad founded, Islam, spread widely during his lifetime, relying on soft power instead of military might, and sought armistices even when militarily attacked. Cole sheds light on this forgotten history, reminding us that in the Qur'an, the legacy of that spiritual message endures. A vibrant history that brings to life the fascinating and complex world of the Prophet, Muhammad is the story of how peace is the rule and not the exception for one of the world's most practiced religions.

In the midst of the dramatic seventh-century war between two empires, Muhammad was a spiritual seeker in search of community and sanctuary. In this masterfully told account, preeminent Middle East expert Juan Cole takes us back to Islam's-and the Prophet Muhammad's-origin story. Cole shows how Muhammad came of age in an era of unparalleled violence. The eastern Roman Empire and the Sasanian Empire of Iran fought savagely throughout the Near East and Asia Minor. Muhammad's profound distress at the carnage of his times led him to envision an alternative movement, one firmly grounded in peace. The religion Muhammad founded, Islam, spread widely during his lifetime, relying on soft power instead of military might, and sought armistices even when militarily attacked. Cole sheds light on this forgotten history, reminding us that in the Qur'an, the legacy of that spiritual message endures. A vibrant history that brings to life the fascinating and complex world of the Prophet, Muhammad is the story of how peace is the rule and not the exception for one of the world's most practiced religions.

Renowned blogger and Middle East expert Juan Cole takes us "inside the youth movements in Tunisia, Egypt, and Libya, showing us how activists used technology and social media to amplify their message and connect with like-minded citizens" (The New York Times) in this "rousing study of the Arab Spring" (Publishers Weekly, starred review). For three decades, Cole has sought to put the relationship of the West and the Muslim world in historical context. In The New Arabs he has written "an elegant, carefully delineated synthesis of the complicated, intertwined facets of the Arab uprisings," (Kirkus Reviews), illuminating the role of today's Arab youth—who they are, what they want, and how they will affect world politics. Not all big groups of teenagers and twenty-somethings necessarily produce historical movements centered on their identity as youth, with a generational set of organizations, symbols, and demands rooted at least partially in the distinctive problems of people their age. The Arab Millennials did. And, in a provocative, big-picture argument about the future of the Arab world, The New Arabs shows just how they did it. "Engaging, powerful, and comprehensive...The book feels as indispensable to scholars as it is insightful for a more casual reader" (Los Angeles Times).

This decisive account of the role of nonviolence in Islam and Muslim societies, both historically and in current times, chronicles an often-observed but longstanding pacifist tradition. * Voices of leading nonviolence activists, such as Nobel Peace Prize-winner Shirin Ebadi, Mubarak Awad, Gene Sharp, and rock star Salman Ahmad, that make the history of nonviolent activism immediate and up to date * A bibliography listing a wide array of source materials

With clarity and concision, Juan Cole disentangles the key foreign policy issues that America is grappling with today--from our dependence on Middle East petroleum to the promotion of Islamophobia by the American right--and delivers his informed advice on the best way forward. Cole's unique ability to take the true Muslim perspective into account when looking at East-West relations make his insights well-rounded and prescient as he suggests a course of action on fundamental issues like religion, oil, war and peace. With substantive recommendations for the next administration on how to move forward in key countries such as Iraq, Pakistan, Afghanistan, and Iran, Engaging the Muslim World reveals how we can repair the damage of the disastrous foreign policy of the last eight years and forge ahead on a path of peace and prosperity. Cole argues: * Al-Qaeda is not a mass movement like fascism or communism but rather a small political cult like the American far right circles that produced Timothy McVeigh. * The Muslim world is not a new Soviet Bloc but rather is full of close allies or potential allies. * There can be no such thing as American energy independence, we will need Islamic oil to survive as a superpower into the next century. * Iran is not an implacable enemy of the U.S.--it can and should be fruitfully engaged, which is a necessary step for American energy security since Tehran can play the spoiler in the strategic Persian Gulf. * America's best hope in Iraq is careful, deliberate military disengagement, rather than either through immediate withdrawal or a century-long military presence--in other words, both the Democrat and Republican presidential candidates are wrong.

Who is Allah? What does He ask of those who submit to His teachings? Pulitzer Prize-winner Jacke Miles gives us a deeply probing, revelatory portrait of the world's second largest, fastest-growing and perhaps most tragically misunderstood religion. In doing so, Miles illuminates what is unique about Allah, His teachings, and His resolutely merciful temperament, and he thereby reveals that which is false, distorted, or simply absent from the popular conception of the heart of Islam. So, too, does Miles uncover the spiritual and scriptural continuity of the Islamic tradition with those of Judaism and Christianity, and the deep affinities among the three by setting passages from the Hebrew Bible, the New Testament, and the Qur'an side by side. In the spirit of his two previous books, God and Christ, and with his characteristic sensitivity, perspicacity and prodigious command of the subject, Miles calls for us all to read another's scriptures with the same understanding and accommodating eye that we turn upon our own.

"This work offers a fresh assessment of the sources for the prophet Muhammad's life, integrating the earliest non-Muslim and documentary sources with the earliest prophetic biographies written in Arabic during the eighth-ninth centuries C.E. By placing these sources within the intellectual and cultural world of Late Antiquity, the author carves out a methodological approach to studying the historical Muhammad that, though reliant on the methods of critical historical scholarship, strikes a balance between revisionist historical skepticism and naïve historical realism"--

A retelling of the life of the iconic prophet of Islam draws on records from disciplines to profile his complexity, vitality, and legacy, tracing his rise from humble origins to a powerful figure who challenged an established order with a new vision of social justice.

Maulana Wahiduddin Khan, one of the most eminent scholars of Islam in the contemporary Muslim world, draws on original Arabic sources to correct misconceptions about Islam's early history and to establish that the revolution brought about by the Prophet was entirely bloodless. In fact, the Prophet Muhammad formulated an ideal ideology of peace which he faithfully and rigorously put into practice. In his time, there were some minor skirmishes, but no full-fledged wars. The Prophet of Peace deals with the significant issues associated with the life of the Prophet, including jihad, itjihaad, the concept of war and the relationship with other religious communities. Quoting extensively from the Quana nd the Hadith, Maulana Wahiduddin Khan illuminates the Islamic view of modernity, secularism, democracy, freedom of speech and the relevance of Islam in the modern age, clarifying that Islam as revealed in the Quran is not anti-modernity, nor does it advocate violence. Persuasive and compelling in its breadth and wisdom, this book presents an authentic picture of the life and teachings of the Prophet Muhammad and is a must for all those who wish to understand Islam and its place in the world today.

Heretic and impostor or reformer and statesman? The contradictory Western visions of Muhammad In European culture, Muhammad has been vilified as a heretic, an impostor, and a pagan idol. But these aren't the only images of the Prophet of Islam that emerge from Western history. Commentators have also portrayed Muhammad as a visionary reformer and an inspirational leader, statesman, and lawyer. In Faces of Muhammad, John Tolan provides a comprehensive history of these changing, complex, and contradictory visions. Starting from the earliest calls to the faithful to join the Crusades against the "Saracens," he traces the evolution of Western conceptions of Muhammad through the Reformation, the Enlightenment, and the nineteenth and twentieth centuries, and up to the present day. Faces of Muhammad reveals a lengthy tradition of positive portrayals of Muhammad that many will find surprising. To Reformation polemicists, the spread of Islam attested to the corruption of the established Church, and prompted them to depict Muhammad as a champion of reform. In revolutionary England, writers on both sides of the conflict drew parallels between Muhammad and Oliver Cromwell, asking whether the prophet was a rebel against legitimate authority or the bringer of a new and just order. Voltaire first saw Muhammad as an archetypal religious fanatic but later claimed him as an enemy of superstition. To Napoleon, he was simply a role model: a brilliant general, orator, and leader. The book shows that Muhammad wears so many faces in the West because he has always acted as a mirror for its writers, their portrayals revealing more about their own concerns than the historical realities of the founder of Islam.
