key points, new developments, and references where appropriate. Both Obstetrics and Gynaecology volumes are carefully edited to ensure consistency of structure, style and level of detail, and to avoid overlap of material. This book owes a great debt to Professor Stuart Campbell and Dr Christoph Lees, editors of the seventeenth edition of this book. They presided over and were intimately involved in the comprehensive revision of what had become a rather old-fashioned book, bringing it fully up-to-date in the year 2000, and were responsible for introducing many of the concepts and features on which this edition has built.
