In Grade 7, the development of ideas about materials begins with awareness of solutions, which students often encounter everyday as liquid mixtures. Further awareness of materials in terms of the components they are made of— substances, elements, compounds are taken up in Modules 2, 3, and 5.

This book presents an assortment of teaching and assessment strategies appropriate for 21st century learners, based on the author's 25 years of teaching experience in private and state school institutions in the Philippines. It highlights the outcomes-based assessment of learning; the curriculum basics for arts-based teaching; learning activities based on the integrated arts for an effective instructional process; and examples in the teaching of critical thinking, communication, collaboration, and creativity, known as the Four Cs. While the monograph focuses on the author's local context, a plethora of citations

"This annotated bibliography includes entries that describe the general situation of the Filipino youth, based on the data and findings of national youth surveys (E.G., NFO- Trends Youth Study 2001, McCann Youth Study 2000) and reports of nation al conferences on Filipino children and youth. A significant number of studies deal with youth culture and behaviour - the culture of students, their political attitudes, religious beliefs, family values, perceptions of their sexuality and their premarital experiences. Other works are on deviance - juvenile delinquency, fraternity violence, rape and sexual violence, sexual molestation, and prostitution"--P. [v].
