governments, financial systems, and scientific institutions throughout history • Shows how Eisenhower's treaty with the Greys, signed at Holloman Air Force Base in 1954, gave the aliens authority to abduct humans for "research" • Reveals how Reptilian-influenced ex-Nazis infiltrated the U.S. government • Explains how the Reptilians have created alien-human hybrids under their control to replace the human population Long ago, the Galactic Federation sent the Atlans, a fierce group of humans from the Pleiades, to Earth to confront the newest colony of the combative ever-spreading alien race known as the Reptilians. The ensuing battle sank the continent of Lemuria and drove the Reptilians underground beneath the Indian subcontinent as well as to Antarctica. Able to shapeshift to appear human, the Reptilians then infiltrated the Atlantean civilization, abducting humans and creating Reptilian hybrids. As Len Kasten shows, this technique of infiltration and hybridization prior to an all-out attack has been the hallmark of Reptilian conquest throughout the galaxy. Chronicling the history of the Reptilian Empire's influence on Earth and their conquest of 21 star systems, Kasten reveals how the human race is enmeshed in a skillfully concealed plot to enslave humanity and exploit our planet's physical and biological resources. Revealing Hitler's pact with extraterrestrials and the Reptilian influence on the Nazi state, he shares new documents that disclose the rescue and rehabilitation of

Nazi war criminals to assist in the Cold War, which then corrupted many U.S. government institutions. Focusing on crucial events in the decade after World War II, he examines the Reptilians' human allies, the Illuminati, who control the levers of financial, technological, and military power throughout the world through various secret societies. He shows how Eisenhower's treaty with the Greys, signed at Holloman Air Force Base in 1954, gave the aliens permission to take humans up to their spaceships, ostensibly for genetic study--in return for alien technology--and how these abductions led to the creation of a hybrid race under Reptilian mind control. He also explains how Kennedy was assassinated by the CIA because of his plans to rout out this Nazi-Reptilian presence. Contrasting the Reptilians with the benevolent Ebens, the aliens from Zeta Reticuli who crashed at Roswell, Kasten exposes the stealthy tactics of the Reptilians, their relationship with the Greys, and their advanced genetic bio-technology and teleportation abilities--as well as what we need to do to defeat their plans.

Where the bloodlines of the Nephilim leave off, the real story just begins. Or does it go back even further than that? The very real probability that non-human intelligences visited and even copulated with primordial humans is detailed in civilization's most ancient

cultural and religious records. These historical records further reveal that these intelligences were reptilian in nature—or, at the very least, have been represented throughout human history in reptilian form. From the Serpent, Nawcash, in the Garden of Eden; Atum, the Egyptian snake-man; and Quetzalcoatl, the feathered serpent god of the Mayans to the double-helix snake symbol of Enki/Ea in ancient Sumerian literature, the serpent has been the omnipresent link between humans and the gods in every culture. In *The Secret History of the Reptilians*, Scott Alan Roberts investigates and examines the pervasive presence of the serpent in human history, religion, culture, and politics. Are we the product of an extraterrestrial race that moves and breathes—and even breeds—beneath the surface of all of human history? Put on your thinking cap and take an historical, anthropological, archaeological plunge into the heady waters of extraterrestrial origins.

Transportation of species to areas outside their native ranges has been a feature of human culture for millennia. During this time such activities have largely been viewed as beneficial or inconsequential. However, it has become increasingly clear that human-caused introductions of alien biota are an ecological disruption whose consequences rival those of better-known insults like chemical

pollution, habitat loss, and climate change. Indeed, the irreversible nature of most alien-species introductions makes them less prone to correction than many other ecological problems. Current reshuffling of species ranges is so great that the present era has been referred to by some as the "Homogocene" in an effort to reflect the unique magnitude of the changes being made. These alien interlopers often cause considerable ecological and economic damage where introduced. Species extinctions, food-web disruptions, community alterations, ecosystem conversion, changes in nutrient cycling, fisheries collapse, watershed degradation, agricultural loss, building damage, and disease epidemics are among the destructive - and frequently unpredictable - ecological and economic effects that invasive alien species can inflict. The magnitude of these damages continues to grow, with virtually all environments heavily used by humans now dominated by alien species and many "natural" areas becoming increasingly prone to alien invasion as well. Attention to this problem has increased in the past decade or so, and efforts to prevent or limit further harm are gaining wider scientific and political acceptance.

Teachers that were from another area of the universe that taught her what she teaches people today. The art was drawn by a talented self-taught artist who had to take nearly a year to be trained, along with their help, to do remote viewing, among other things, in order to be able to draw the art in this story with as much precision as possible. "B.E. Lewis offers some of the most compelling evidence ever presented by an author on the gray and reptilian presence. We can't ignore that something inexplicable has happened to millions of people who claim to be abducted. Are we dealing with invisible beings like the Jinn, extraterrestrials, dimension beings or terrestrial beings that have lived on Earth for millions of years? Finally, a new theory!" - Ann Druffel, bestselling author of How to Defend Yourself Against Alien Abduction and The Tujunga Canyon Contacts Thousands of people vanish each year. Have they been abducted by reptilian beings that have lived inside our planet for millions of years? Have they altered our DNA? Is this why ancient worldwide civilizations worshiped serpent gods? Discover why Dulce Base security officer Thomas Castello, Dulce geologist Phil Schneider and CIA Pilot and Area 51 engineer John Lear tried to warn us about the reptilian underground presence. This original book, Ancient Serpent Gods by B. E. Lewis, deals an astounding blow to all our preconceived notions of human and dinosaur evolution. Did a species of dinosaurs actually survive an extinction event 65 million years ago, did humans exist with them, and did they possess nuclear warfare millions of years ago? Has Earth always been dominated by an intelligent dinosaur known to ancient civilizations as Serpent Gods? Discover how ancient texts describe nuclear wars, serpent gods and how they mated with human women. Did they genetically

create Homo sapiens and other Earth species? Now Lewis offers compelling evidence the dinosaur didn't vanish, but evolved into what millions of abductees identify as Gray and Reptilian aliens. Witnesses and abductees tell of hybrids in underground bases, humans used for experimentation, and grays and reptilians who work with our military and governments in secret. Could abductions by these gray/reptilian beings account for thousands who have vanished without a trace? If so, this could be the greatest secret of all time, the one that has been kept from humanity for eons: Serpent Gods are TERRESTRIAL, not extraterrestrial and have controlled us for eons. This book will challenge your beliefs on religion, evolution, aliens and UFOs and their agenda for humanity. Are you ready for the shocking truth?
