assessment for juvenile  
violent offenders. The  
book is based on a  
longitudinal data base of  
juveniles who have  
committed violent  
crimes and who have  
been followed up after  
six months to measure  
their recidivism rate.

The aim of this book is

# Read PDF Risk Assessment For

to provide practitioners who are dealing with juvenile (violent) offenders, with scientifically-based theories and knowledge derived from results about risk assessment.

In particular it shows how a newly developed and tested instrument/approach, the EARN (European Assessment of Risk and

# Read PDF Risk Assessment For

Needs) works and how it can be used to help practitioners.

Recidivism of violence in juveniles is based on several risk factors and is reduced on the basis of protective factors.

Efficient legal intervention and treatment are more and more tailored according to the risk factors but also to the needs of

# Read PDF Risk Assessment For Juveniles. Juvenile

Justice Systems in  
Europe tend to approach  
the juvenile who has  
committed a crime not  
only from a sanction  
point of view but more  
as an opportunity for the  
juvenile, his or her  
family and the social  
context in general, to  
reduce the risk of  
recidivism. This book  
will be of interest to

researchers, students,  
social workers, police  
officers and lawyers.

Highly practical and accessible, this is an indispensable resource for any mental health practitioner working with youth at risk for violent behavior.

Presented is a comprehensive framework for

# Read PDF Risk Assessment For

evaluating juveniles in the justice system or those whose behavior in school, therapy sessions, or other contexts raises concern about violence. Detailed case examples illustrate the authors' scientifically grounded approach to selecting appropriate instruments, analyzing and communicating assessment results, and

# Read PDF Risk Assessment For

designing effective  
interventions. Special  
problems addressed  
include bullying, sexual  
aggression, fire setting,  
and homicide. The book  
also examines the  
development of  
aggressive conduct  
problems and their  
connections to other  
emotional and  
behavioral disorders.

# Read PDF Risk Assessment For Health and Care

Services requested an Analysis of Forensic Mental Health Care in the Czech Republic considering an increase of hyped serious violent crimes. A new forensic team was established to create a procedure of a structured violence risk assessment focusing on juveniles. A research on the prediction of

# Read PDF Risk Assessment For

juvenile violence has shown the importance of focusing primarily on prevention.

That means paying attention to juveniles whose personality is still undergoing developmental changes.

There is no diagnostic tool for the violence risk assessment in youth in the CZ standardized to identify juveniles who are at high risk of

# Read PDF Risk Assessment For

committing a violent  
crime. A scale for  
violence risk assessment  
in youth SAVRY was  
chosen for  
standardization. 30  
juvenile participants  
were recruited from  
psychiatry inpatient  
clinic and tested by  
SAVRY, a scale of  
aggression SAGS,  
personality  
questionnaire HSPQ and

# Read PDF Risk Assessment For

a Conners scale for  
parents. It was found  
out that the SAVRY is a  
valid and reliable tool  
for the violence risk  
assessment in youth in  
the CZ. This paper  
presents results of the  
pilot study, as well as  
results from a recently  
conducted survey into  
the clinical value and  
applicability of the  
SAVRY. In conclusion,

# Read PDF Risk Assessment For

this project will contribute to the enrichment of the list of effective tools that can lead to a reduction of violence in the CZ and to the implementation of the first diagnostic tool for assessing the risk of violence amongst juveniles.
