There is another element at work in Space Team: A Comedic Sci-Fi Adventure, that is, Cal's character. Even though it seems the plot is driven forward by Cal's screw-ups, he does have some redeeming qualities. He is fiercely loyal to his friends and crew, to the point of putting his own life on the line, which he does a number of times.

The Snarkiest Sci-Fi Series in the Galaxy is Back! After saving an alien race and its god from a sentient zombie virus, Cal Carver and the crew of the Dread Ship Shatner are feeling pretty pleased with themselves. Unfortunately, the creator of the zombie virus is out for revenge, and has recruited the galaxy's deadliest - and oldest - assassin, Lady Vajazzle, to hunt Space Team down. But when Vajazzle discovers the crew is under the protection of a wolf-like species known as the Greyx, she is forced to implement a Plan B so diabolical it threatens to plunge the entire star system into chaos. With time running out, Cal must find a way to outmaneuver and outgun the galaxy's greatest killer before she murders his friends, butchers the Greyx, and buys the whole galaxy a one-way ticket to total annihilation. Featuring murderous senior citizens, a moon of death, and a pointy stick that could change the fate of the universe, Space Team: The Wrath of Vajazzle is the second relentlessly funny science fiction book in the bestselling Space Team series by award-winning author, Barry J. Hutchison.

Featuring unexpected stabbings, maniacal puppets, and a dog with a head like a testicle, Space Team: The Hunt for Reduk Topa is the twelfth book in the Space Team series, and the perfect jumping on point for new readers. Sick of the stress, aggravation, and multiple genocides they've had to put up with lately, accidental space hero Cal Carver and his crew set off to start a new life in a distant corner of the galaxy. Six tedious days of warp-speed and board games later, they arrive in a sector filled with new hope, new opportunities, and new adventures. Too broke to take advantage of any of these things, they are forced to accept a series of increasingly demeaning jobs just to make ends meet. When one such job leads them to the offices of a sector-wide TV network, Cal signs-up to star in smash-hit gameshow, The Hunt, confident of winning the big cash prize. What he fails to realize is that the show's premise involves him being chased and killed for the amusement of the viewing public and so Cal must run, fight, and occasionally beg for his life as he attempts to win the game, the money, and his freedom. But in the entire history of the show, no competitor has ever survived The Hunt, and the network will stop at nothing to keep that record intact... Space Team: The Hunt for Reduk Topa is the twelfth book in the internationally bestselling series from award-winning author, Barry J. Hutchison, and perfect for fans of Guardians of the Galaxy, The

Hitchhiker's Guide to the Galaxy, and The Golden Girls.

In his hilarious new sci-fi series, Jim C. Hines introduces the unlikely heroes that may just save the galaxy: a crew of space janitors. The Krakau came to Earth to invite humanity into a growing alliance of sentient species. However, they happened to arrive after a mutated plague wiped out half the planet, turned the rest into shambling, near-unstoppable animals, and basically destroyed human civilization. You know—your standard apocalypse. The Krakau's first impulse was to turn around and go home. (After all, it's hard to have diplomatic relations with mindless savages who eat your diplomats.) Their second impulse was to try to fix us. Now, a century later, human beings might not be what they once were, but at least they're no longer trying to eat everyone. Mostly. Marion "Mops" Adamopoulos is surprisingly bright (for a human). As a Lieutenant on the Earth Mercenary Corps Ship Pufferfish, she's in charge of the Shipboard Hygiene and Sanitation team. When a bioweapon attack wipes out the Krakau command crew and reverts the rest of the humans to their feral state, only Mops and her team are left with their minds intact. Escaping the attacking aliens—not to mention her shambling crewmates—is only the beginning. Sure, Mops and her team of space janitors and plumbers can clean the ship as well as anyone, but flying the damn thing is another matter. As they struggle to keep the Pufferfish functioning and find a cure for their crew, they stumble onto a conspiracy that could threaten the entire alliance... a conspiracy born from the truth of what happened on Earth all those years ago. Jim C. Hines has proven himself a master of humorous fantasy with his Jig the Goblin novels, and has turned the usual fantasy tropes sideways and upside down with his Princess and his Magic Ex Libris series. With Terminal Alliance, the debut novel in his humorous military science fiction series, Jim takes us into a brand-new universe of entertainment certain to appeal to fans of both Douglas Adams and Terry Pratchett.

Ace Tucker is a man who was raised in outer space and taught how to be human by a Russian cyborg chimpanzee. Ace earns a living as a rock-and-roll roadie and cargo hauler for the greatest band in the galaxy, Mustache Supernova. His world is turned upside down the night he meets Elvis Presley, the very not-dead King of Rock 'n' Roll. When Ace saves Elvis from an alien assassin he must travel to Memphis, Tennessee to restore Presley's health. But things are not what they seem at Elvis's pastoral home, Graceland. There, Ace makes a discovery that has the power to shape the future (and potentially undo the past).

Based on the smash-hit audio serial, Bubble is a hilarious high-energy graphic novel with a satirical take on the "gig economy." Built and maintained by corporate benevolence, the city of Fairhaven is a literal bubble of safety and order (and amazing coffee) in the midst of the Brush, a harsh alien wilderness ruled by monstrous Imps and rogue bands of humans. Humans like Morgan, who's Brush-born and Bubble-raised and fully capable of fending off an Imp attack during her morning jog. She's got a great routine going—she has a chill day job, she recreationally kills the occasional Imp, then she takes that Imp home for her roommate and BFF, Annie, to transform into drugs as a side hustle. But cracks appear in her tidy life when one of those Imps nearly murders a delivery guy in her apartment, accidentally transforming him into a Brush-powered

mutant in the process. And when Morgan's company launches Huntr, a gig economy app for Imp extermination, she finds herself press-ganged into kicking her stabby side job up to the next level as she battles a parade of monsters and monstrously Brush-turned citizens, from a living hipster beard to a book club hive mind.

In space, no one can hear you clean Most people want fame and fortune, but not Triana Moore. She prefers programming maintenance bots and eating vendo food in the solitude of the space station's control center. But when a highly connected security agent interrupts her routine with stories of murder and missing bodies, Triana can't ignore him; it's cooperate or find a new job. A girl has to pay the rent, even on a crappy studio compartment. Since working with a shiny detective beats a shuttle dirt-side, Triana lends her programming skills to Agent O'Neill's investigation. Together, they find more victims and evidence of a major cover-up. A killer with a clean-up crew means money--lots of money, and connections--just the kind of notice Triana tries to avoid. Following the clues leads them to the wealthiest levels of the station, uncovers long-hidden secrets, and puts the killer on notice. It will take all Triana's technical talents, most of O'Neill's connections, and some really excellent croissants to stop the murders, save her job, and ultimately, her life.

"A laugh-out-loud space adventure you don't want to miss!" - P. Dixon, Amazon They may have recently averted a full-scale galactic war, but Cal Carver and Space Team just can't stay out of trouble. When a 'Weird Space Thing™' threatens to destroy planet Earth, Cal is determined to stop it. But when they get there, they find the place is still swarming with parasitic extra-terrestrial bugs, and that there isn't a whole lot left to save. While battling an unexpected ghost of the past, Cal is abducted by aliens. Again. Brought before their covert High Council, Cal is given a choice: save his Earth and doom countless others to oblivion, or sacrifice it, so that parallel Earths may live. Cal opts for none of the above, but his proposed solution might well doom not just his universe, but all universes everywhere. Featuring familiar strangers, unfamiliar friends, and an angry talking sheep named Duggie, Return of the Dead Guy is the reality-shattering sixth book in the Space Team saga.

The sole survivor on a desperate, last-chance mission to save both humanity and the earth, Ryland Grace is hurtled into the depths of space when he must conquer an extinction-level threat to our species.

Five years ago, the United States Space Force became a reality. And while those writing the checks took things very seriously, the other military branches did not. As a result, Space Force was populated by undesirables: men and women who made too many mistakes, didn't follow the rules, or...slept with the wrong general's daughter. Three times. On camera. It was a mistake, okay? My name is Captain Ethan Stone, a decorated member of SEAL Team 6 turned Space Force 'recruit.' While the powers-that-be attempted to make Space Force an embarrassment, they also sent some of the very best minds, fighters, and pilots to the program, because sometimes the best of us decide to take a stand against those same powers. Yeah, yeah. Not me. Though I seem to recall I was standing when... Sorry. It's a distracting memory. Flash forward five years and between tenses. President West is in office. Power has shifted. And Space Force is defunded. With just a handful of us still living on base, we find ourselves being evicted. But before all of us can leave, aliens invade. Really ugly ones, too. Super nasty. I don't think I could describe them here without getting the book banned. Anywho, using their advanced technology, they seal off Space Force Command behind a shrinking force field and kick off a battle royale to the death. Human vs. alien. To the victors goes the Earth. While my boy Frank Taylor and I throw down inside the force field, my main squeeze, First Lieutenant Jennifer Hale, leads an international strike team into freekin' space. It's nuts. Crazy action. Super funny, too, in like a Deadpool way, if that's your thing. The only way to really know what went down is to snag a copy of this book and read it for yourself...before it's too late. Or wait for the movie. There is going to be a movie, right?
