This book is a comprehensive study and guide for the classroom teacher, the gifted program coordinator, and the graduate student, who are challenged daily to provide for individual children who differ markedly but come under the umbrella of giftedness. It serves as a wellspring that derives from theory while it offers practical application of theoretical construct in a wide variety of international settings from leaders in the field who demonstrate implementation of proven and field-tested techniques and alternative scenarios to accommodate every classroom situation. Contributors are internationally recognized experts who have come together to provide a sound, reliable source for teachers of the gifted that will be utilized time and time again by practitioners and researchers alike. Among internationally renowned scholars are: Joyce Van Tassel-Baska, Susan Johnsen, June Maker, Belle Wallace, Linda Kreger-Silverman, Dorothy Sisk, Gillian Eriksson, Miraca Gross, Gilbert Clark, Enid Zimmerman, and Rachel McAnallen. Hava E. Vidergor Ph.D. is lecturer of innovative pedagogy and curriculum design at Gordon Academic College and Arab Academic College of Education and holds a Ph.D. in Learning, Instruction and Teacher Education with specialization in Gifted Education from the University of Haifa, Israel. Carole Ruth Harris, Ed.D., formerly Director of G.A.T.E.S. Research & Evaluation, is a consultant in education of the gifted in Central Florida who holds the doctorate from Columbia University where she studied with A. Harry Passow and A.J. Tannenbaum. She has served as Associate in International Education at Harvard University, Research Associate at Teachers College Columbia University, lecturer at University of Massachusetts, Lowell and University of Hawaii, Principal Investigator at Research Corporation of the University of Hawaii, and Director of the Center for the Gifted in Ebeye, Marshall Islands.

The UK National Curriculum requires children to develop an IT capability through the different subject areas. This book for non-IT specialists aims to help humanities teachers use IT to enhance and facilitate children's learning. The author considers how children's historical and geographical knowledge, skills and understanding can be better developed through use of IT, and how their IT capability can be developed in this context.

This practical resource shows you how to apply Sam Wineburgs highly acclaimed approach to teaching, "Reading Like a Historian," in your middle and high school classroom to increase academic literacy and spark students curiosity. Chapters cover key moments in American history, beginning with exploration and colonization and ending with the Cuban Missile Crisis.

Covering history, geography, and sociology, these sample lessons and units show how to use the Parallel Curriculum Model to provide rigorous learning opportunities for students in social studies.

Spanning five hundred years of American history, this definitive reference provides an incisive look at
