"The right story at the right time. . . . It's not just a narrative; it's an experience. It's the novel we've been waiting for." --The New York Times A boy tries to steer a safe path through the projects in Harlem in the wake of his brother's death in this outstanding debut novel that celebrates community and creativity. ** WINNER OF THE CORETTA SCOTT KING JOHN STEPTOE AWARD FOR NEW TALENT ** MICHAEL B. JORDAN TO DIRECT MOVIE ADAPTATION SIX STARRED REVIEWS It's Christmas Eve in Harlem, but twelve-year-old Lolly Rachpaul and his mom aren't celebrating. They're still reeling from his older brother's death in a gang-related shooting just a few months earlier. Then Lolly's mother's girlfriend brings him a gift that will change everything: two enormous bags filled with Legos. Lolly's always loved Legos, and he prides himself on following the kit instructions exactly. Now, faced with a pile of building blocks and no instructions, Lolly must find his own way forward. His path isn't clear--and the pressure to join a "crew," as his brother did, is always there. When Lolly and his friend are beaten up and robbed, joining a crew almost seems like the safe choice. But building a fantastical Lego city at the community center provides Lolly with an escape--and an unexpected bridge back to the world. David Barclay Moore paints a powerful portrait of a boy teetering on the edge--of adolescence, of grief, of violence--and shows how Lolly's inventive spirit helps him build a life with firm foundations and open doors. A saga of survival, technological innovation, and breathtaking human physical achievement -- all set against the backdrop of a world headed toward war -- that became one of the most compelling international dramas of the 20th century. While tension steadily rose between European powers in the 1930s, a different kind of battle was raging across the Himalayas. Contingents from Great Britain, Nazi Germany, and the United States had set up rival camps at the base of the mountains, all hoping to become recognized as the fastest, strongest, and bravest climbers in the world. Carried on across nearly the entire sweep of the Himalayas, this contest involved not only the greatest mountain climbers of the era, but statesmen and millionaires, world-class athletes and bona fide eccentrics, scientists and generals, obscure villagers and national heroes. Centered in the 1930s, with one brief, shining postwar coda, the contest was a struggle between hidebound traditionalists and unknown innovators, one that featured new techniques and equipment, unbelievable courage and physical achievement, and unparalleled valor. And death. One Himalayan peak alone, Nanga Parbat in Kashmir, claimed twenty-five lives in less than three years. Climbing the Himalayas was the Greatest Generation's moonshot -- one shrouded in the onset of war, interrupted by it, and then fully accomplished. A gritty, fascinating history sure to enrapture fans of Hampton Sides, Jon Krakauer, and Laura Hillenbrand, The World Beneath Their Feet brings this forgotten story back to life.

another story. Look closely and you'll find very different worlds living side by side, at a picnic, in the ocean, in the blazing desert, even inside the same two-story home. Sue Redding's bold, wonderfully detailed illustrations hide lots of fun and mischief—keep an eye out for the red ant and green worm who have snuck into every picture!

In the fall of 2005, Frank Turner was virtually unheard of. His rock band, Millions Dead, was finishing up a grueling tour and had agreed that their show on September 23 would be their last. The entry on the band's schedule for September 24 read simply: "Get a job." Cut to July 2012—the London Olympics, where Turner and his backing band, The Sleeping Souls, are playing the pre-show, after having headlined sold-out arena shows across the UK for months. *The Road Beneath My Feet* is the unvarnished story of how Turner went from crashing on couches at house shows to performing for thousands of screaming fans who roar his every lyric back at him. Told through tour reminiscences, this is a blisteringly honest tale of a rock career that's taken Turner from drug-fuelled house parties and the grimy club scene to international prominence and acclaim. But more than that, it is an intimate account of what it's like to spend your life constantly on the road, sleeping on floors, invariably jetlagged, all for the love of playing live music.

'This beautifully drawn book is a delightful launchpad for home learning' — Sunday Times Told in gentle rhyming verse, this beautiful non-fiction picture book follows the story of an oak tree on a hilltop as it witnesses life changing around it over the course of hundreds of years. From the time when hunters chased deer through the woodland, to when trees were cleared for farmland, to the smog and factories emerging during the industrial revolution, one majestic oak has seen it all, and now we can too. Accompanying pages at the end of the book include a timeline of events in world history across the periods featured in the poem, the life cycle of an oak tree, and prompts to help parents and children explore their own local history.

Three years across the North American continent in a canoe, all alone, Jerry Pushcar accomplished something that at times even he didn't think was possible. *Waters Beneath My Feet* is the story of Pushcar's incredible journey from New Orleans, Louisiana to Nome, Alaska.
