Dr. Seuss presents three modern fables in the rhyming favorite Yertle the Turtle and Other Stories. The collection features tales about greed ("Yertle the Turtle"), vanity ("Gertrude McFuzz"), and pride ("The Big Brag"). In no other book does a small burp have such political importance! Yet again, Dr. Seuss proves that he and classic picture books go hand in hand.

"We're going to raise traders just like they raise turtles in Singapore." So trading guru Richard Dennis reportedly said to his long-time friend William Eckhardt nearly 25 years ago. What started as a bet about whether great traders were born or made became a legendary trading experiment that, until now, has never been told in its entirety. Way of the Turtle reveals, for the first time, the reasons for the success of the secretive trading system used by the group known as the "Turtles." Top-earning Turtle Curtis Faith lays bare the entire experiment, explaining how it was possible for Dennis and Eckhardt to recruit 23 ordinary people from all walks of life and train them to be extraordinary traders in just two weeks. Only nineteen years old at the time-the youngest Turtle by far-Faith traded the largest account, making more than \$30 million in just over four years. He takes you behind the scenes of the Turtle selection process and behind closed doors where the Turtles learned the lucrative trading strategies that enabled them to earn an average return of over 80 percent per year and profits of more than \$100 million. You'll discover How the Turtles made money-the principles that guided their trading and the step-by-step methods they followed Why, even though they used the same approach, some Turtles were more successful than others How to look beyond the rules as the Turtles implemented them to find core strategies that work for any tradable market How to apply the Turtle Way to your own trades-and in your own life Ways to diversify your trading and limit your exposure to risk Offering his unique perspective on the experience, Faith explains why the Turtle Way works in modern markets, and shares hard-earned wisdom on taking risks, choosing your own path, and learning from your mistakes.

As he grows to manhood, young Bill Lucas struggles to overcome the trauma of his past--an abusive and alcoholic father, brutalized mother, loss of his older brother James on the battlefields of Vietnam, and failing farm--as he sets out to build a life and family for himself, in a debut novel set against the backdrop of rural Wisconsin. Reader's Guide available. Reprint.

A thick fog has found its way up north to the lighthouse family, surrounding the cliffs and waters below. Always ready to lend a hand, the lighthouse siblings Whistler and Lila help Seabold guide small ships to land. As they overlook the foggy waters, they hear a distant voice echoing from the rocks below. Who could it be? Using only a rope and their hearts to guide them, Seabold, Lila, and Whistler make their way down the side of the cliff. And what they discover will help them weather even the thickest fog -- a new friend.

A collection of essays written in classic Dixie storytelling fashion includes both original pieces as well as several published in prominent magazines and offers a perspective on the unique culture of the American South, from its unspoken codes of conduct and fashions to regional beliefs about religion and politics. Reader's Guide included. Reprint. 16,500 first printing.

What started as a bet about whether great traders were born or made became a legendary trading experiment that, until now, has never been told in its entirety. *Way of the Turtle* reveals, for the first time, the reasons for the success of the secretive trading system used by the group known as the “Turtles.” Top-earning Turtle Curtis Faith lays bare the entire experiment, explaining how it was possible for Dennis and Eckhardt to recruit 23 ordinary people from all walks of life and train them to be extraordinary traders in just two weeks. Presents a collection of traditional Cherokee tales, teachings, and folklore, with four works presented in both English and Cherokee.

Nia loves Alfie, her pet turtle. But he's not very soft, he doesn't do tricks, and he's pretty quiet. Sometimes she forgets he's even there! That is until the night before Nia's seventh birthday, when Alfie disappears! Then, in an innovative switch in point of view, we hear Alfie's side of the story. He didn't leave Nia—he's actually searching for the perfect birthday present for his dear friend. Can he find a gift and make it back in time for the big birthday party? From the author-illustrator of *Fraidy Zoo* and *The Bear Report* comes a warm and funny ode to friendship—even when the friends see the relationship, and the world, very differently.

This fun, beautifully illustrated story of a Turtle who loves her Afro is for all who know that curly Afros are beautiful! The Turtle with an Afro is frustrated because her springy head of curls will not stay in place. But Turtle soon sees the light, and learns that her curls are DYNAMITE! Children will love to read along with this celebration of curly, kinky, coily hair in all its forms, and learn a lesson on self-love and acceptance along the way! The Turtle with an Afro features an anthropomorphic character with an African American likeness, which includes thick, curly hair. However, Turtle's struggle with styling her hair is an experience that girls and women are likely to identify with, regardless of cultural background. The plot centers on her emotional journey from frustration to excitement as she styles her "fantastic, frolicking, feisty" hair. This poetic, alliterative children's book makes for an engaging read aloud with young kids at home and at school. Its playful tone and fast pace hold the attention and delight of readers. Ultimately, this is a story of self-love that acknowledges how we as humans grapple with our bodies, our image, and our desire to present our best selves to the world. Children will leave this story with confidence in the mantra: Rock your crown! Carlotta Penn, PhD, is also author of *Dream A Rainbow*, a picture book about believing in the power of dreams that also teaches children the colors of the rainbow. An irresistibly cute story about finding the confidence to be yourself, starring a turtle in search of the perfect shell. Terrance the turtle was born without a shell, so he uses a cardboard box instead. Terrance loves his box. It keeps him dry on soggy days, safe from snooping strangers, and is big enough to cozy up with a friend. But when another turtle points out that Terrance's shell is, well, weird, he begins to wonder whether there might be a better shell out there... Eventually, and through much trial and error, Terrance learns that there's nothing wrong with being different—especially when it comes to being yourself.
