From Musket To Metallic Cartridge

The book is purely traditional and does not have information about blackpowder substitutes or modern inline muzzleloaders loaded with sabots. Unlike the books of Sam Fadala it does not have information about velocities, but nevertheless From Musket to Metallic Cartridge is probably the best reference book for blackpowder shooters available today.

...

The Gras rifle was an adaption of the Chassepot designed to fire metallic cartridges introduced in 1874. It was manufactured by Manufacture d'armes de Saint-Étienne (MAS), Manufacture d'Armes de Châtellerault (MAC), Manufacture d'Armes de Tulle (MAT) and, until 1870, in the Manufacture d'Armes de Mutzig in the former Château des Rohan .

Chassepot - Wikipedia

Sharps rifles are a series of large-bore single-shot rifles, beginning with a design by Christian Sharps in 1848, and ceasing production in 1881. They were renowned for long-range accuracy. By 1874 the rifle was available in a variety of calibers, and it was one of the few designs to successfully transition to metallic cartridge use.

From Musket to Metallic Cartridge eBook by Oyvind Flatnes ...

A paper cartridge is one of various types of small arms ammunition used before the advent of the metallic cartridge. These cartridges consisted of a paper cylinder or cone containing the bullet, gunpowder, and, in some cases, a primer or a lubricating and anti-fouling agent. Combustible cartridges are paper cartridges that use paper treated with oxidizers to allow them to burn completely upon ...
