## Guide books

Qualitative survey research is a more casual research methodology used to gain in-depth information about people's underlying reasoning and motivations. It can help you develop a deep understanding of a topic, issue, or problem from an individual perspective. In many cases qualitative surveys are used to come up with a hypothesis, which are then tested using quantitative research.

## Qualitative Survey Types & Examples | SurveyMonkey

An online interview is an online research method conducted using computer-mediated communication (CMC), such as instant messaging, email, or video. Online interviews require different ethical considerations, sampling and rapport than practices found in traditional face-to-face (F2F) interviews. Online interviews are separated into synchronous online interviews, for example via online chat
