The Clubhouse Network: Where Technology Meets Imagination is a free out-of-school learning program where young people (ages 10-18) from underserved communities work with adult mentors to explore their own ideas, develop new skills, and build confidence in themselves through the use of technology. Founded as the "Computer Clubhouse" in 1993, The Clubhouse is the brainchild of Mitchel Resnick and Natalie Rusk of the MIT Media Lab in Cambridge, Massachusetts, and Stina Cooke of Boston's ...

Computer Clubhouse - Wikipedia

Abstract This paper introduces the concept of distributed constructionism, building on previous research on constructionism and on distributed cognition. It focuses particularly on the use of computer networks to support students working together on design and construction activities, and it

Through a comparative case study, Sheridan and colleagues explore how makerspaces may function as learning environments. Drawing on field observations, interviews, and analysis of artifacts, videos, and other documents, the authors describe features of three makerspaces and how participants learn and develop through complex design and making practices.
